Motor Vehicle Accident Reconstruction and Cause Analysis: Feldsbar, J.; 1978

Automated Accurate Reconstructions

- Donald J. Van Kirk

Motor vehicle accident reconstruction and cause analysis is more than just a job or even a profession. It’s a way of life. It requires a dedication to lifelong learning and a commitment to excellence. It demands attention to detail and a willingness to embrace new technologies and methodologies. It’s about being prepared to face any challenge that comes your way. And it’s about being ready to go beyond the call of duty to help ensure that justice is served.
